UNIVERSITY FOR MAN
1801 ANDERSON MANHATTAN KANSAS 66502 PHONE: 532-6957
STATEMENT

The University of Minnesota, as the public educational institution in its present structure, does not meet the needs of our society. The student context exists within the ivory walls, shunning responsibility for himself and the necessity of making decisions which affect his life. The university does not provide meaningful training to help in discussing the crucial issues confronting mankind today. Instead of promoting life, it passivates it.

We believe that each individual has particular interests and possibilities and therefore needs to ask his own questions and direct his own education. Education involves the total environment, and should lead to personal growth and social action.

If education is to be a constructive creativity it must be free of grades and compelling requirements. The eventual aim of education is to allow us to think and discover for ourselves.

COURSES

Courses on any subject may be offered by any person at any time. The direction it takes and the success a course has is up to you and those participating in the class. The childish system of grades as rewards is removed and therefore, one must determine his own commitment. We believe that learning is the result of a true desire to learn. It is up to you to determine your educational interest.

ADMINISTRATION

Policy making and decisions are open to all participants. Starting the 9th of October UMN will hold a general meeting each month to discuss major problems. Immediate questions and decisions will be handled by those attending the office during the week. Come and begin to determine the direction of the university that is for you.

THE OFFICE

The office is located at 1801 Anderson Avenue on the second floor of the Beier Center. Our phone is 529-6557.

Part of the office has been set aside to begin a library. We need ideas for books, papers, and magazines you would like for your own use and made available for others.

Because of the present shortage in housing and jobs in Minneapolis, UFM would like to experiment with a group of students interested in living in a group which would not be dependent upon the present housing system. To facilitate exchange there will be lists posted in the office to advertise those seeking or leaving a job or apartment.

ONE HUNDRED THOUSAND CHINESE CHARACTERS: Chinese, one of the oldest living languages, is terribly unique. Many present-day characters or "word symbols" still the same as those developed some 4,000 years ago. An adequate Chinese vocabulary would require about 4,000 to 10,000 characters which represents a much larger word vocabulary because characters may be combined to form new words. No meetings. If 5 or more persons are interested in finding out more about Chinese a group will be formed. Plans are to develop an appil in the group's field of interest.

HUSBAND-WIFE INTERPERSONAL RELATIONS: A successful marriage requires a great deal of effort and getting used to the other person by each partner in the marriage. The two will be based on the phrase of marriage and the interpersonal relations between the couple, with the intent of clarifying some poorly understood aspects and developing some ways of dealing with the trying situations. Thursday, 9:30-11:30 a.m., 3:30-5:30 and 7:00 p.m. in the Student Union, room 205A. Leader: Darrell Spoon, 5-6557.

COMMUNICATION WITHIN THE FAMILY: What is good communication, and how can it be promoted? What are some of the hang-ups that interfere with efforts to communicate and can and what can be done about it? We will explore the process of communication within the family. If you are interested in developing a better understanding of communication, but the other members of the family, whether they are your sons and daughters, or your parents, come and join us in this group. May be able to use an empty space each phase. Monday, 9:30-11:30 a.m., 3:30-5:30 and 7:00 p.m. Student Union room 205A. Leader: Darrell Spoon, 5-6557.

THINKING WOMEN AS HOUSEWIVES: Are you a bit weary of diapers, little league games, and neighborhood coffee and bridge parties? Thinking of exercising your mind on a course or two, but not quite sure which? Why not discuss opportunities for women in education and in the world of work with others like yourself and feel no pressure for grades? A group of visiting "experts" from campus and community will be available to add light. Thursday, 7:30, in room 203 of the Student Union. Convenor: Margaret Lehey.

HOW ARE THEY GROWING? Ages G-13: Do we really help children to grow and participate in developing the community? How do we keep our training stive initiative and problem-solving in real-life situations? Let's look at what is being done tomorrow in A, B, N, and J. for Holt, Flyn, Palmer. Questioned with...
as we enable students to accept initiative and responsibility for their own education, thereby discovering that they are the message. Can you do this with our ideas? Let us see how something can happen. Wednesday, 7:30 in the Newman Center. Convenor: Carroll Coutes and Sue Meie.

VIOLENCES: What is the method or effect to change? Are these words universally definable? Should they be? The topic here is a large one: many questions can be asked and many related issues explored. The program will be monitored by the participants. The literature surrounding this subject may or may not be tapped. Meeting time will be available by request. Convenors: Ed. Lunn and Sally Wexley.

INTERPERSONAL COMMUNICATIONS: This group has been one of the most popular of UW groups. Its chief concern is mirrored in the Baarsa song "Within You, Without You." "We were talking about the space between us all," said one fellow who arbitrarily chose from his experience. "In this space is the potential for interaction which is intended to increase sensitivity to others and awareness of self. Such a process of authentic communication will be attempted in this seminar. At least five sessions will be held during different days of the week. The leaders and schedules will be available during registration. Coordinator of the program is Jack Carlson. 550-3359.

ME AND LIFE: Now that we have read the theories on successful living let's examine our own theories, our life styles, and our philosophies. Why did we adopt them, or did we adopt them? Are they worthy of pursuit? Do they enrich our lives or is there still a need? This will be a free-wheeling dialogue directed toward a richer life. Thursday, 7:30 p.m., in the library of the Westley Foundation. Convenor: Skippy Rizoti.

THE ROLE OF THE STUDENT IN EDUCATIONAL REFORM: Are student contributions to university reform limited to demonstrations, strikes, and sit-ins? Or are there alternative ways of student influence? Let us discuss what students can do to improve their educational experience. To provide an alternative educational experience, 2) loosen the system so that those who have (mentally) survived high school can really develop a system that might wake up the zombie. Tuesday, 7:30 p.m., in the lobby of the Westley Foundation. Convenor: Cowan Freeman, 550-4866.

Lake Erie turned into a cesspool, organic waste ponds and man-made water pollution are ever-increasing. Are we but a few examples of man's disruption of the ecosystem. More important than we are today the reality is the understanding that we are a part of something larger than ourselves, a part of the totality that is Mother Earth.
