STATEMENT

We at the University for Man, feel that the American educational system in its present structure, does not meet the needs of our society. The student cannot control his own destiny, but is subject to the will of others. He has no say in the curriculum and is not allowed to make decisions which affect his life. The university does not provide meaningful training to be successful in today's society. We are discussing the curricular changes confronting mankind today. Instead of promoting life, it promotes death.

We believe that each individual has a particular interest and the possibility to develop. We are here to answer questions and direct the way of education. Education involves the total environment and should lead to personal growth and social action.

In order to permit constructive creativity, it must be free of goals and compelling requirements. The eventual aim of education is to allow us to think and discover for ourselves.

COURSES

Did you ever consider that you may have something to share with others, knowledge, experience, a craft? Do you have an idea that you haven’t tried? Courses on any subject may be offered by any person at any time. The direction it takes, and the success is a function of you and those participating in the class. The division of grades as rewards is removed and therefore, one must determine his own commitment. We believe that learning is the result of a desire to learn. It is up to you to determine your educational interest.

ADMINISTRATION

Policy making and decisions are open to all participants. UFMA holds a general meeting each evening to discuss major problems. The next general meeting will be February 12th at 9:40 p.m. at the UMFU lounge. Immediate questions and decisions will be handled by those frequenting the office during the week. Come and begin to determine the direction of the university that is for you.

THE OFFICE

The office is located at 1801 Anderson Avenue on the second floor of the Baptist Center. Our phone is 321-9557.

Since fall UFMA has expanded. We now have a library filled up with books on education and books suggested from people in UFMA classes. It is open to everyone to escape to a quiet atmosphere, a draft table and a little and large reading list. Present reading suggestions include a coffee house, a summer training program in all reform, a retreat with friends from the Institute for the Study of Non-Violence, a seminar into jobs relevant for today's graduates, a department of extramural studies, and a teacher-course self-description.

WHO AM IT? We are offering 1011 Laramie as a place to meet each Wednesday night at 8:00. Teenagers and young adults are welcome.
