POLICE-STUDENT RAP SESSION

The police department of Manhattan, Kansas would like to involve students and people living in this community in their new police-community relations program. This program involves informal “rap sessions.” At each session, four Manhattan police officers will meet with concerned people to talk over problems. The sessions are intended to bridge the gap between police and the people, hopefully to make Manhattan a better community in which to live. Law and order is not enough. It must be law and order through justice. We encourage you to sign up. The number of people signing up will determine when and where the first meeting is. Coordinator: Patrolman Tom Boley, 9-3956.

THE DRAFT?

How do you stand with the draft? Can you get a deferment? How long can you keep the one you’ve got? What is a conscientious objector? How does the lottery affect you? If questions like these are bothering you—help is available. Draft information and counseling services are provided at the K-State Draft Information Center, 1001 Anderson Ave. For an appointment call 9-4281 or Keith Spare at 9-3051 between 10-12:00 am.

POLITICS

PRACTICAL CIVIL LIBERTIES

After a review of the fundamentals of constitutional interpretation, this group will undertake a project involving active participation in the defense of civil liberties. Possible areas of activity include women’s rights, freedom of speech, black rights, and student rights. First meeting: Monday, 7:00 p.m., 911 Laramie Coordinate: R. Wampler, 9-7139.

GOVERNING MANHATTAN

How does Manhattan govern its citizens? We will study the government of Manhattan and explore the problems that face people here in this community. Discussions with leaders in the city government (example: Human Relations Board) have been arranged. We can go on field trips or take on projects over the next few months. First meeting: WEDNESDAY, 7:30 p.m. In the UMHE Parents Room, 1021 Denison. Coordinator: Lou Douglas, 2-6826.

VOCATIONS FOR SOCIAL CHANGE

Finding work that feels good and/or creating jobs and roles which meet problems in the Manhattan community or elsewhere can be difficult. The nitty-gritty of low-quality, low-cost living is also involved. I’d like to start a counseling service and become a contact person to share ideas and possibilities of vocations for social change.

Come in for help or just to talk. I’ll be available every Monday, Wednesday, and Friday mornings from 10:00 a.m. to noon, at USM’s library at 1801 Anderson. For information or appointments at other times, call 2-6957. Phil Wardell.

WANT TO DRAFT COUNSEL?

If you have ever had a problem with the draft and are interested in helping someone else, why not learn to counsel on the draft? If you’re interested, sign up at registration. Coordinator: Keith Spare, 9-3051.

THE LEFT IN AMERICA’S PAST

We can look at anything from Tom Paine and Tommey Adams, the abolitionists of the 19th century, Eugene Debs and the Wobblies, the Communist party, and today’s new left. First meeting: Monday at 8:00pm in the Sun Room at 1801 Anderson Ave. Coordinator: Dr. Stephen Ambrose, 9-2617.

STUDENT GOVERNMENT: URIAA!

Can Student Senate be more than a Thursday night legislative session? Can it be a body that initiates needed change instead of one which just appropriates money? Can our judicial system have real power in protecting students’ rights and not be just a puppet of the administration? In other words, can student government really work—if not, why perpetuate the force that students govern themselves? Why have a student government at all? If you are interested in finding workable alternatives to the present student government association, sign up at registration. First meeting: MONDAY, 7:30 p.m., 1021 Denison. Coordinators: Bojan Oberon, 9-6807.

ON AGGRESSION

A review and evaluation of the theories concerning the causes of aggressive behavior in humans. Implications for social problems will also be considered. First meeting: WEDNESDAY, 7:45 p.m. in the living room at 1801 Anderson Ave. Coordinator: Charles Perkins, 8-1277.

FOLK UNIVERSITY SOCIETY

We are imaginative realists—gratified when we see glimpses of realized human potential, saddened at the "wasteland" of human potential on the mass level. We are attempting to analyze and correct in our own lifestyles those elements in society which are preventing man’s realization.

We believe a knowledge of the past is necessary in order to understand the mistakes which have slowed our progress in becoming fully actualized human beings. We plan to study cultural and political alternatives which have been attempted during the past 200 years, in order to discover the blocks upon which to build a viable human society.

Possible topics: Man as Ruler of Technology; "Law and Order"—a new McCarthy Era; Does Man Have the Potential to Control His Own Life?; Early Socialists and Communists. First meeting: FRIDAY at 8 p.m. at 426 Leavenworth, Apt. 1. Coordinator: Byron Jones.

AMERICAN SERVICEMAN’S UNION

Like the weather, everyone gripes about the army, but no one does anything about it. At many forts, militant GI’s have formed locals of the American Serviceman’s union to fight against the army’s racism and oppression. In this course we will study how Ft. Riley GI’s can fight back against the army and how concerned civilians can support them. Enrollment is limited to short-timers and anti-war civilians. Officers need not apply. For Info. call Jim, 293-3613 (Leonardville).
"THE MUSHROOM"—A BI-WEEKLY COMMUNITY PAPER

Out of the Alternatives Conference came a group who wanted to start a community newspaper. Their intent is to publish a paper that will provide a forum or some of the alternative institutions in Manhattan. They hope to be a hub of much of the student and community activity.

Some of the articles that are scheduled to appear include: educational and university reform, free school news, men's and women's lib, reviews, and vocations for social change. Some areas that might be followed up include: articles concerning non-violence, prose and poetry, health foods and organic gardening, cartoons, and survival information.

The first issue should come out during the first week of February. If you're interested call Tom Wall, 9-8346, David Hurd, 9-8304 or 2-6957, or write "The Mushroom", Box 944, Manhattan, Kansas.

COMMUNITY

WORLD FRIENDSHIP

"World Friendship", a group of international and American women, seeks to build friendships that span culture and languages, acquaint new arrivals with the community and its facilities, and provide a unique social outlet that is not tied to departmental or ethnic considerations. Weekly meetings are held each Tuesday morning with transportation and nursery care provided, leaving women free to visit, join special interest groups, take trips around the city, and generally enjoy themselves in relaxed and friendly surroundings. (Successful interest groups in the past have included cooking, oil painting, sewing, handicrafts, conversational English and a class for expectant mothers.) Members are always free to initiate new groups of their own choosing. Throughout the year, social events that include the entire family are planned by the members.

CULTURE

ZEN BUDDHISM

Zen merely points the Way. It does not teach. Perhaps it teachings. It simply is...(the Void being the integrative life-force). So often I forget if I am the dreamer or the dream, the object or its shadow. But sitting quietly, the trees wave to me with humility and the wind touches my face with gentleness. Maybe as I ponder the water overflowing in an empty cup my mind will grasp its own existence.

Gaze at a smooth pebble. And listen to the Silence Of sleeping grass—

Does it not reside in the Big-Self?

If you would care to melt the Ice of being with me, then let us travel together as One. Cen- tred.

First meeting: TUESDAY, 7:30 p.m., at 340 N. 16th. Coordinator: Phil Lerner, 9-2884.

MANHATTAN FREE SCHOOL SYSTEM (NETWORK)

We're looking for interested people to explore new school possibilities in Manhattan (Kansas) area. We'll have one group attempting to found a free high school during the course of the spring semester... one group researching legal hangups, funding, community problems, and exchange news letters... and one group (no leader yet) for those interested in free grade schools. From these three basic groups, we will try to share our experiences, activities and discoveries. First meeting: TUESDAY, Feb. 2 at 8 p.m. in K-State Union, Room 207. ATTENTION fellow artists and craftsmen! Ever thought about selling your wares? Some shops in town take consignments and a commission to sell your things—that means they have to mark up the price on your items so they can make a buck or two or more. That also makes it hard for your items to sell. Wouldn't it be nice if you, yourself, could sell your own wares, making all the profits at a price you set and not that the store sets? This is not a dream. It can be a reality if you help; let's get together and see what we can do about starting a Crafts Cooperative. Vocations for Social Change means making jobs that not only help you, but help others as well. First meeting: Thursday, 7:30 p.m., 821 N. 11th. Coordinator: Verla Davis, 9-5470.

SPEED READING

The all-now, UN-SPEED READING!!! First meeting will be devoted to a brief survey of S.R.T. how fast can the eye actually read, how can an actual comprehension percentage be determined, etc. Please bring questions, ideas and opinions. Self-motivation is the primary requirement as most methods can be learned independently. Two complete 5-week sessions will be offered beginning Feb. 1 and March 8. THE ANCIENT HONORABLE ART OF ORIGAMI

Have you ever made a paper airplane? Then you have made an origami. Origami is the Japanese art of paper folding. Although paper airplanes will not be shown, I will show a number of birds and animals and other items. First meeting: 7:00 p.m., Tuesday Union room. Leader: Bob Katz, 9-2221.

ISSUES IN HIGHER EDUCATION—IN SCULPTURE

My hobby is wood sculpture. My job deals with higher education. I would like to lead a group combining both. This group is for people who share a common interest in horses and all the trivia of English riding. You don't need to own your own to join. Our activities will include speakers, field trips, films on riding and stable management, clinics, picnics, trail rides, and whatever else you would like to plan. The club is sponsoring a horse show in Weber Arena in the spring. There will be a fee of $1.50 per semester to cover the cost of the film rental and other expenses. Anyone really interested in making a cooperative effort to bring this badly needed bit of culture about is wanted. The form, funding, and entire nature of the magazine is up to us. It’s a chance for you to become involved in all phases of production. Sign up at registration. Coordinator: Paula Newcombe, 9-8337 & Bob Watson, 1320 Laramie Apt. #3

Coordinators: Loin Kedum, 9-4015 and Uck Davis, 9-5008.

THE VINE AND THE GRAPE

Vines and grapes are rare sights in our fields and on our hills, but vineyards cover much of the world’s farmland. Their yields sustain and entertain most of the human race today, and in the past our ancestors seldom neglected the grape’s abundant gifts at the table. If you are curious about the cultivation and use of the grape in the past and present, please sign up. To join one must be 21. Limit 21 with small expense fee. For more information, call Mary Winden, 6-7501.

ART AND TOMORROW

Should tomorrow inadvertently arrive, what roles will the creative person play? What will "art" and the "artist" be? What will be their functions? If any? A wide-open forum for all—professionals, amateurs, young, old, patrons, critics, ignoramuses. How about some science and technology people, some computer and A.I. types? No pretentious buffing about "culture" allowed. We seek interesting exchanges on the subject of the work of skilled imagination in the future. First meeting: Tuesday at 9:30 pm at 1730 Houston Street. Coordinator: William Burke, 8-5278.

BEYOND THE TOP 40 OR GOOD MUSIC DOESN’T HAVE TO BE BY BOBBY SHERMAN

Do you buy albums? Tired of the TOP 40? Tired of not being able to find new, different, good sounds? One of the best ways to solve the above is to listen to other people’s record collections. That’s the way this will start out...from there, we might try interpretation, or who knows what? Everything is game: Country and Western, Folk, Hard Rock, Foreign Music, "Long Hair" stuff, etc.--but please, no Archies or Herman’s Hermits. We want to listen to things different than what you hear on KOMA or KOMX. Don’t worry about not having something to share...there will be enough to get started! First meeting: Tuesday, 8 p.m. at 1425 University Drive. Coordinator: Steve Hermes, 1-1648 or 2-6877.

COME, LET US PLAY GOD--

The biological revolution is just beginning. We are on the ground floor of determining the future of mankind. How can an ethic of human responsibility be applied to the revolutionary advances in science? What about gene manipulation, mind-manipulation, population control, organ transplants, abortion? How can we achieve an ethic, how much time do we have, can the churches help? Join in discussions with others--people who represent current thought in biochemistry, medicine, biology, varied religions, and other social disciplines. Dialog between professional people, members of churches, and others will stimulate discussion among the whole group. We will use a text by Leroy Augenstein. Join in seeking answers to questions which are so new that there are no sure answers as yet. First meeting: February 10th in Union room 206-C. Coordinator: Mrs. Jean Dallas 6-6581.

THE DRUG EXPERIENCE

What does the drug user experience? We have been studying various aspects of the subjective side of the experience since last spring. We've used taped interviews with users, questionnaires, narrative accounts, and shared our own observations to increase our understanding.

This semester, in addition to drug users, we will also collect information on non-users' beliefs about the drug experience and study some data from heroin addicts. We want participants who will be able to help us find subjects and collect data. The possibility of doing a paper for credit can be arranged. Sign up at registration and you will be contacted. Coordinator: E. Robert Sinnett, Ph.D., 532-6116.

MYSTIC EXPERIENCES

CITIZENS FOR A BETTER ENVIRONMENT

SOAPS

We read the advertisement: "Low in phosphates." How detrimental are the ingredients used as a substitute? We need to study the enzymes and other ingredients in soaps and publish the results. Hopefully we may be able to get a research grant. If you would like to work on this sign up.
Coordinator: Warren Ballard 9-5119.

DAM BREAKING

Agencies such as the Army Corps of Engineers (ACE) have built reservoirs without any ecological considerations to the areas where the water is backed up. This project's aim will be to research future dam proposals and determine the drawbacks or problems caused by reservoirs. The information will be collected, assimilated and distributed to legislators, concerned citizens and organizations to help educate the public. The power to persuade such agencies as the ACE lies with the people, but they must exercise it.
Coordinator: Ken Derickson 9-4293.

THE STATE LEGISLATURE

Many of our environmental problems involve enforcement of our laws but new laws are needed in many areas. Before these laws can be legislated our legislators must have sufficient information to make laws efficient. Your project will be to supply this information. Through your own research and consultation with various resource people, information can be sent to each member of the state legislature. By doing this many legislators will be informed on problems of which they previously had no idea.
Coordinator: Ken Derickson 9-4293.

SOLID WASTE

What can be done with many of the solid wastes (for example: aluminum, glass, paper) that we find polluting the United States? We pay millions of dollars each year collecting containers only to throw them away. Part of your project will be to investigate types of recycling programs. Hopefully, you could initiate such a program for Manhattan, maybe even form a corporation. This is just one aspect of the entire problem. If you have other ideas or would like to work on this one, please sign up.
Coordinator: Warren Ballard 9-5119.

ZERO POPULATION GROWTH

Zero Population Growth (ZPG) is an organization concerned with education and legislation in regard to matters of overpopulation. Our group is one of four ZPG chapters in Kansas and one of over 200 chapters in the country. One of its aims is to reach 100,000 in its number of membership. A group this large would have lobbying power for national legislation concerning these issues.

Coordinators:
Susan Allenbach, 6-9341; Ann Sutti, 9-7606; Ann Pannecan, 9-2333. Sign up at registration if interested in joining.

"TOP OF THE WORLD"

This area located on Route 113 in the Marlatt area was donated to the University for development as a park facility. At present this facility hasn't been realized and it is used instead by jeepsters and motor cyclists. This project would be designed to bring pressure to bear on the University to develop the land and stipulated by the donor, and suggest a more appropriate place for the use of jeepsters and cyclists. You won't make Who's Who, but you can have the personal satisfaction of trying to keep man from destroying himself and nature.
Coordinator: Ken Derickson 9-4293.

A GOOD WAY TO EAT

Are you into a food thing? The way you eat affects the way you feel and act. It's important to know about the food you eat. This group will cover these major areas: vegetarianism, organic gardening, and health nutrition. Limit is 10.

First meeting: Tuesday, 8:30 p.m. at 816 Goodrich Drive. Coordinators: John Springer, 8-5169 and Jean Peavy, 9-3815

ORGANIC GARDENING

Convinced that the stuff you buy is probably poisoned but too poor to buy health foods? Let's talk about growing our own food and eating the weedy wild things. If you know or want to know about organic repellents, old wives' tales or witch's brews, let's share our ideas.

First meeting: Wednesday, 7:00 p.m. in the Sun Room at 1801 Anderson Ave.
Coordinator: Dan Davis.

ENVIRONMENT--IDEAS AND ACTIONS

Will man be able to survive in his environment? Can man control his own destiny or are we at the mercy of the things around us—things we have created? What do you want to do? This group is completely open—form it any way you want. We'll start with raps about man and his environment. We can pick up any speakers and films people would like to see and work on some projects.

First meeting: Tuesday, 7:30 p.m. Living room, 1001 Anderson Ave. Coordinators: Martha Slack, 9-7194 and Byron Jones, 9-5301.

FOOD CO-OP

The ideas and plans for a food co-op have been slowly forming. A co-op, with its many implications, is badly needed in Manhattan. Cutting food costs, supporting local farmers, having access to healthier foods (some organically grown), helping to create an ecological awareness (no paper bags, no non-returnable bottles, etc.) and bringing people together are the main functions of a co-op. We need help. We'd like to start by contacting other co-ops to get hints on the best way of organizing. Then we need more people to support it, to join, to participate and do a little work. Cooperatives need people—that's where it's at. Please sign up, or for more information, call Marilee Barnett 9-1896, or Tom Wall 9-8340.

A PLEA TO THE COMMUNITY--A COMMUNITY CENTER?

So many times when people come together for the express purpose of starting up art co-ops, coffeehouses, or to find meeting places, they are stopped short of achieving their goal because of space problems. We at UFM have been fortunate in having housing in the Baptist Campus Center. However, with some 1,500 people enrolled, the ideal would be a large space, a house or storefront, that we could call home—a home that would become a center for community projects such as the crisis center, a women's center, draft counseling, a food co-op, etc. Here people can come together to work, having both separate areas and common space. If we get it together, a center can and will happen. Any help or support anyone can give will be welcome.

... SOME RELIANT STUFF THAT YOU OUGHT TO KNOW ...

Administration

UFM would welcome anyone who is interested in education and the surrounding community to become involved with us in questioning the free university's direction and role. Most decisions concerning UFM's role have been made by the full time staff and friends who express their ideas and opinions.

A MEETING...

We'd like to gather with friends, participants, leaders, interested onlookers, etc., for a community, communal meal. Let's just get together for a pot luck dinner with everyone sharing food and themselves. Everyone's invited to 1801 Anderson at 6:00 p.m. Saturday, January 30th.

We'll have a friend up from Kansas City to rap about co-ops. In general, we can talk, maybe have some theatre, some films, speakers—whatever it feels like...

Courses

Did you ever consider that you may have something to share with others: yourself, knowledge, experiences, a craft? Do you have ideas that haven't been listed? Courses on anything may be offered by anyone at anytime. If you would like to lead a class, just call us. If you have any ideas for classes, we'll try to find leaders. As classes are created, we'll list them in "The Mushroom". Classes listed in this brochure will start February 29th.

UFM Does Travel

Over the past year UFM's staff has helped set up the Community, K.C.'s Free U., and K.U.'s Free University along with other ad. re-form programs and community projects. Members of UFM's staff would be willing to help other groups who are beginning work in their community. Let us know if we can be of help to share ideas and staff.

Diploma

To some people, a degree signifies that their education is complete. We, who work with UFM, do not believe that an education ever ends but, instead, continues. A diploma symbolizes a moment in that process. Therefore, UFM offers a degree to anyone who is growing, learning, and changing themselves and the world for the benefit of all. UFM will be offering degrees in the Union on January 28 and 29. $25 for each diploma and an extra 10¢ to have a name inscribed on it.

changes

As fall forebodes winter and winter heralds spring, we are reminded of the permanence of change. As the seasons and the world change, so does UFM.

Formerly, all of UFM's classes were announced in a single brochure. We also stated that learning should not be separated into regimented time periods. Classes should start and begin at any time. In hope of facilitating flexibility UFM has changed. Classes can be started at any time—simply call 2-6957 with your ideas. Descriptions will be printed up in either future UFM brochures or in a new bi-weekly community newspaper: "The Mushroom."

we believe

The Free University believes in education of the whole individual so that he will understand his role in a changing society and his role as a growing individual.

We aim towards a society:
Where man can rationally choose and create his own values and ideas.
Where man can communicate himself to others and in turn understand their dreams and disappointments.
Where man can relax and develop his own creativity and interests.
Where man can understand society and make it a better place.
It is up to each person to develop what he does best or whatever he finds most rewarding.
He also needs to be aware of himself as an integral part of the family of man.
