PEOPLE'S RESOURCE DIRECTORY

The community is trying to put together one in which each person has a skill which he is encouraged to use and to teach to others. Each of us has something to contribute. But how do we let people know what we have to teach? Or what we want to learn?

The People's Resource Directory is the link--it shortens the distance between you and your interests--between you and what you have to offer and what you need to learn.

The learning experience is not a class--it takes place in your home with one person--teaching or learning from one to one. Listings are free--the book is free. Call ULM, 539-6440, or UHP, 539-5865, or if you have something to list, The Directory will be available next Monday.

Ulm is the only academic institution in the nation that has a service available on campus, cultural experiences at ULM, and volunteer opportunities in Manhattan.

SPONTANEOUS STREET THEATER

"All the world's a stage and the men and women merely players; they have their exits and their entrances; and one man in his time plays many parts..."

Through acting, we wish to stimulate a fresh approach to the situations all of us encounter daily in our relations with ourselves and others. But this will not be acting in its traditional sense. Using mime, improvisation,sekedra, and anything else we can think of, we will try to erase, if only momentarily, the permanent and rigidating behavior of people by establishing a sense of community.

The only experience is life. It will be simple and exciting and primary emphasis will be on the enjoyment of doing things together.

University for Man is an educational service for all of the people of Manhattan. It presents the ideas, interests and concerns of a diverse community. The choice to participate in or to avoid any of the classes is the individual's responsibility. Within UFM, there is room for persons of different ages, backgrounds and beliefs. Anyone can be a student or a teacher, regardless of age, experience, ability, or resources. In most classes the relationship between the teacher and the students is informal and both take responsibility for the success of the class. Because there is no tuition, no credits, and no grades, the free university is one of the only systems where the teaching must reflect the interests of the students. Rewards are internal.

UFM is financially supported by Student Governing Association and Continuing Education at Kansas State University.

UFM would like to thank class leaders and other volunteers
