A large quantity of food is going to waste just outside your door. One doesn’t need to go to the mountains or virgin forests to find wild food plants. Abandoned farmlands, old fields, stream banks, roadways, unused lots and even vacant lots in the finest foregone cities. Many different kinds can be prepared almost entirely from wild plants; for example a complete meal can be made from dandelions or dandelions can be substituted for flour in your favorite pancake recipe. Precipitation is the key to the wild and a copy of Staking the Wild Asparagus or a similar book. Coordinators; Eddy Barrett, 776-8134, and Sue Mc, 539-8226. LORDS OF THE EARTH

Where do we see ourselves? What you read here is the first statement in a statement of beliefs and attitudes, not the first element in the process. It is to begin here, somewhere. So rather than concentrating on the past; we have this to say: There is a desire to develop our experience within the context of the land. We depend upon the growth of the earth for our continued survival, for our independence and our sustenance. We desire to develop within ourselves an understanding of the land which are at work and at play. First meetings June 17, 7:00 p.m., 615 Fairchild Terrace. An Institution is a Place to Do Things Where Those Things Will Not Be Done

School must encourage its students not to learn. For the student, knowledge quickly, most of them would soon leave the school having learned. But if the students left the school it would come to exist as an act of knowledge that the students would have no place in which to learn to think and live in a manner which would encourage learning should sign up for this class at registration. GAY CONSCIOUSNESS

For over a year, a group of gay people have been meeting weekly. Each of us has come with different needs and expectations. As a result, we have done a variety of different things together. Also, we have spent a lot of time just talking and sharing experiences. The result has been growth in a certain level of gay consciousness. Gay consciousness is the growing realization of realizing that gay people are not alone (there are always many gay people everywhere). For many of us it has become aware of this fact. In addition, we need to learn to support and accept each other regardless of our various differences. Consequently, we hope you will join us in continuing this process and that more gay people in the E-State and Manhattan community will join and support us. If you are interested in attending in any way, contact us at 555-5678 or write to us at PO Box 54, Manhattan, and we will contact you.

University for Man is an educational service for all of the people of Manhattan. It presents the ideas, interests and concerns of a diverse community. The choice to participate in or to avoid any of the classes is the individual's responsibility. Within UFM, there is room for persons of different ages, backgrounds and beliefs. Anyone can be a student or a teacher, regardless of age, experience, ability, or resources. In most classes the relationship between the teacher and the students is informal and both take responsibility for the success of the class. Because there is no tuition, no credits, and no grades, the free university is one of the only systems where the teaching must reflect the interests of the students. Rewards are internal.

UFM is financially supported by Student Governing Association and Continuing Education at Kansas State University.
