UNIVERSITY
FOR MAN
FALL 1973

"STEP RIGHT THIS WAY!"
WHAT WE DO

Ever since University for Man was conceived seven years ago, it has sought to make education an experience of curiosity and relevance for the learner. Education has not been perceived as an endless, wearisome task. Instead, it should be seen as a vibrant and joyful learning where the internal rewards of personal growth are at stake.

In UFM, no prerequisites are required; no grades are given. A person participates because he desires to know something which can help make living more fulfilling.

Nothing exists unless it is shared. In the broad sense, knowledge comes into existence within the UFM network. All courses are coordinated by individuals who volunteer their time and freely share their special skills or knowledge with others.

All who participate in UFM, whether "teacher" or "student", are learners. One of the best ways to learn more about something is to try to teach it to another.

Participants in UFM come from diverse backgrounds, have varied occupations, and live different lifestyles. Faculty, visitors, college students, grandparents, M.D.'s, "street people", professors, artists, writers, physicians, college students, grandmothers, M.D.'s. UFM's "street people", professors, artists, writers, physicians, college students, and high school students are likely to be enrolled in any UFM course. University for Man is thus a going "town forum" for the IUE-Manhattan community.

ACKNOWLEDGEMENTS

The staff of UFM expresses appreciation and thanks to the following organizations:

(1) Student Governing Association, Kansas State University

(2) Division of Continuing Education, Kansas State University

(3) United Way, Manhattan chapter.

The coordination and assistance of these groups enable UFM to provide a learning network of high quality, available for free to the participants.

Personal thanks are also extended to private individuals who have made generous contributions of money to UFM. Their donations came at a time of need. In our history, we are once again facing a time of need. In our history, we are extending further into the community to provide a stronger and more vital program of education through the area. Their concerns, and the assistance of the Manhattan chapter of the United Way, are making this possible.

Others wishing to contribute may do so by designating checks to the Manhattan United Way or sending a tax-free (UFM is now non-profit incorporated) contribution to University for Man.

WHO WE ARE

The members of the University for Man staff are a heterogeneous group. The integration of their different backgrounds and interests has created a working capability to relate to nearly all of the diverse community that UFM serves.

From left to right, the staff members and their areas of responsibility are Gary Kazan, Lila Slack, high school; Sue Sandnes, education, women, volunteers and community services; Bill McNea, spiritual awareness and interpersonal groups;Ellen Leffler (with Spell), arts and crafts; Dr. G. Miller, politics and food; G. Spiegel (with Manny), community and scholarly activities. Missing from the group picture is our nearest mentor, Manhattan.

Thank you to two departing staff members, Stephanie Brock and Cliff Castle, and to a great helper, Jim Kjellukan, whose assistance each has contributed to UFM's growth.

COMMUNITY

MANHATTAN LEISURE YEARS ACTIVITY CENTER

This center is intended for the honorable senior citizens of the Manhattan community. A weekly program has been set up to provide recreation for those who no longer have to "slave away" at 8 to 10 hours a day. Job. Planned activities such as films, bus tours, and special entertainment will span the program throughout the month of activities. Please use your leisure time to join us every Tuesday for a covered dish dinner, card games, pool, or just plain visiting with friends. Let us entertain you once a week at the Community House, 4th and Hummel.

Every Tuesday beginning October 16 (10:00 a.m. - 3:00 p.m.) bring a covered dish, your own table service, a big appetite (especially for your friends). COORDINATOR: Delbert Ekart, Kansas Farm Bureau. PHONE: 539-0261

CABLE TV

Since there are a limited number of hours in a week, occasionally some UPH classes have time conflicts with other classes. There are also numerous individual reasons which preclude course participation. We are thus exploring the possibility of videotaping several of our most successful events for presentation through cable TV at a later date. This is a relatively new area so we are curious if anyone else in the community is also interested in preparing material for cable TV. If you want to explore the possibilities further with us, call Joe Rippele at UPH (352-8664) or write to us at 615 Fairchild Terrace.

Interested persons should stop by the UFM House at 616 Fairchild Terrace between the hours of 1-3 p.m. every Saturday. There will be people who will explain the operation of the food co-op and help you place an order. You may pick up information, including price lists, any time during the week. POSITIVE SELF-IMAGE WORKSHOP

Everyone (children) carries within them a mental blueprint or picture of themselves. We may not be conscious of it, but it exists, nevertheless. Our every action, our every effort, is consistent with how we see ourselves. We act and think like the type of people we visualize ourselves to be. Your self-image, then, is the foundation of your entire personality. It will determine your actions and your emotions - and your actions do, in turn, control your circumstances. Because of this, your actions and your circumstances will tend to verify and prove our self-image - setting up a vicious circle if the self-image is leading you to failure, or a pleasant circle if it is leading you to success. Come and learn about your role as teacher and parent in developing a child's self-image - one of the most important influences a child carries with him. COORDINATOR: Positive Self-Image Consultants, Conway Springs, KS. DATE: Wed., Oct. 19. TIME: 10:30. LOCATION: Room 212, Union.

Our basic education is not to teach children how to learn, but to teach them how to learn each time they come to us in a different situation. As we turn our minds to the future and ask ourselves, "What are the new challenges to be faced?" it is important to consider the ways in which we can adapt to these situations. All adults must continually question their own growth in order to advance. This course will help bring imagination and new thinking to the classroom - to harness old trees to make learning.

PROJECT TEACHING

good if he does not own a car, or a home, or many clothes? One is really poor when they do not know a song.

THE PHOTOGRAPHS

The pictures are from in and around Manhattan. Taken during the last several months, they are from the circus, the nearby flinthills, bridge construction on Highway K-177, and the Riley County Fair. No attempt was made to develop a visual theme this time.

However, independent of whatever merit (or lack of merit) the pictures have, the activity of taking them was personally very enriching. For example, before attempting to photograph the hills, I had never really seen how the clouds, passing by the sun, could change the appearance and weight of an entire hill or series of bluffs. As I photographed, I saw how the clouds would sometimes permit the sun to expose only a tip or a side, setting off the rest in dark contrast. And then, by the cloud moving on, another contrast would be defined and there soon stood a brand new kind of hill!

At the fair, I found the camera to be an excellent ticket for gaining entrance into the lives of individual carnival workers. I had a good talk with almost every carnie I photographed. Often they looked crude or rough. But appearances belied the character underneath. They were sensitive, kind, and especially considerate and careful of their fellow carnies. About the fair-goers: "Sure, they like to be teased. They expect it. They wouldn't come if they disliked it."
