Of a hundred average young people I had grown up with, a good forty had dropped out from all recommendations of the time they were twenty-five years old. Some, of course, had become moon drunks or obvious mental cases. A few had stolen money and gone to jail; one or two of the girls had become prostitutes of a more or less gentle type, slipping into hotel rooms or staying with business men when their wives were absent on summer vacations. It was not these inevitable despoits that I referred to in my estimate of forty per cent. It was, rather, that constant group of Americans who have the common task and grace to make a success of their own lives. It was the girls who marry the first man who asks them building furniture, painting rooms, throwing wood, or soaping, producing, and making it their first job. The girls were the ones who married the second man they married, for one more of inspiration entertained at the age of nineteen or so. These were the dropouts that concerned me.

Talking and sharing experiences, realizing that as gay people we are not alone, meeting new people, are some of the reasons we are going to continue meeting this Spring. We hope that more gay people in the K-State and Manhattan community will come out and join us. University for Man is an educational service for all of the people of Manhattan. It presents the ideas, interests and concerns of a diverse community.

The choice to participate in or to avoid any of the classes is the individual’s responsibility. Within UFM, there is room for persons of different ages, backgrounds and beliefs. Anyone can be a student or a teacher, regardless of age, experience, ability, or resources.

In most classes the relationship between the teacher and the students is informal and both take responsibility for the success of the class.

Because there is no tuition, no credits, and no grades, the free university is one of the only systems where the teaching must reflect the interests of the students. Rewards are internal.

UFM is financially supported by Student Governing Association and Continuing Education at Kansas State University.

UFM would like to thank class leaders and other volunteers.

Staff: Stephanie Brock, Clif Castle, Doris Hoarman, Judy Jones, Dennis Lofgren, Sue Maes, and our volunteers.

"It is surprising that the most characteristic American slogan of the 1970's, 'enlighten thyself,' of all the maxims, should have been prompted by the collective creativity of a creative writing class!" -Harvey Swados, from The American Journal
