UNIVERSITY FOR MAN
SPRING 1980
CHILDREN: OUR FUTURE

As a new decade begins, we at University for Man want to take this opportunity to recognize the children of the world by dedicating this brochure to them. Children are full of promise and hope for the future. Their spontaneity and warmth, mingled with their innocence and trust, are comforting to us in these troubled times. The children can teach us to be free in spirit...if only we will let them!

SPRING 1980

UFM will kick off the new decade with some exciting new classes and some old favorites. These classes reflect the broad scope of interests at UFM, and among the offerings, we hope there is something for you. We would like to thank the many people in our community who help make our programs better through their generous donation of time and sometimes dollars. Without these friends, we probably wouldn't be here.

UFM receives funding or support from the KSU Division of Continuing Education, the KSU Student Governing Association, the United Way of Riley County, the Kansas Department of Human Resources-CAUSA, the Fund for the Improvement of Postsecondary Education, the Cheringhouse for Community Based Free Standing Educational Institutions, the Kansas Department of Social and Rehabilitation Services, the Kansas Arts Commission (a state agency), the Kansas Department of Economic Development, Title I of the Higher Education Act (1965), the U.S. Department of Energy, and the Kansas Farmers Union Grain Trust.

MORE THAN JUST CLASSES!

Old Staff, New Staff

The richness of UFM is due in part to the talents of those new people who join our staff. We are pleased to welcome Sheila Stoppell, Ken Torrence and Sue Waite who will work with the Campus Community Staff and Janet Holcomb, the new pottery studio director. Marilyn Kierstead, Labron Rome and Noss Rayton, sponsored by the Kansas Farmers Union Green Thumb program will work with our Appropriate Technology staff as will Bruce Snead, Mike Wilson and Bill Hildebrand. The student assistants are the newest members of the State Outreach staff. And Donna Haynes has joined the staff of the Free University Network.

Free University Network

On March 21-22, the Midwest Region of the Free University Network and the University for Men are hosting the Midwest Community Education Conference which will gather free university and learning network leaders, teachers and organizers together, as well as others involved in community education, for a time of discussion, sharing, Richard Morsella, the founding chairman of Rural America and an advocate of rural concerns, will be a special guest. K-State students and members of the community are invited to attend the conference. For more information contact Sue Hecher, the Midwest Conference Coordinator.

Volunteers continue to provide the force behind the Network. They do a fine job and more about the Free University Network, or if you'd enjoy helping us in our work as a volunteer, please call Julie Covert, Bill Draves or Myrna Daly at 532-5866.

Appropriate Technology

The Appropriate Technology staff have taken a leave from the office to become the construction crew for the DOE-funded UFM solar greenhouse. After months of intensive work behind the scenes, the building is about 95% complete and awaits winter weather before work resumes. If all goes according to schedule, the building will be in operation by mid-summer. Our thanks go to the many volunteers from the community who have donated their time and skills on the various phases of construction, and we welcome continued volunteer assistance throughout the completion of the building.

Upon completion the building will provide a tool workshop, greenhouse, lounge and kitchenette for community use. This facility will be accessible to handicapped citizens and will greatly expand our potential for programming for these citizens.

Community Gardens

Wishing for a nice bunch of greens, a truly ripe tomato (one that tastes like a tomato), trying to remember the smell of sun on fresh turned earth? Though the rain is thirsty, it isn't too soon to begin thinking about your plot in the MANHATTAN COMMUNITY GARDENS. Pick up your garden application at the UFM House, Douglass Community Center, Manhattan Public Library, Riley County Extension Service, or Social and Rehabilitation Services.

For information: Joan Shearer or Bill Hoyt at 532-5866
Phyllis Fitzgerald, WISU, at 537-0812

State Outreach

The UFM State Outreach program continues to help disseminate the Free University model of Community Education, both in Kansas and other states. The Community Resource Act Program provides funding to set up community education programs all over Kansas. Funding through Title 1 of the Higher Education Act provides money to set up workshops for community leaders in small towns in Kansas. Finally, the Free State Project, supported by the Fund for Improvement of Post Secondary Education, involves helping groups in Oklahoma, South Dakota, Iowa, Missouri and Kentucky set up community education programs similar to those that have been going on in Kansas for several years. As you can see, there is a wide range of activities taking up our time these days. For further information on any of our activities, please feel free to call or drop by for a chat.

new! UFM darkroom

We're pleased to announce the completion of a new and much needed facility at UFM. Our new darkroom on the second floor of the UFM House will be used by staff for preparing publicity and graphic materials. In addition, it will be available on a cooperative basis to people in the Manhattan community who need access to a well-equipped and organized darkroom at minimal cost. See FIRE ARTS, page 25, for more information on how you can participate.

A Special Invitation to the Handicapped

UNIVERSITY FOR MEN EXTENDS A SPECIAL INVITATION TO HANDICAPPED INDIVIDUALS IN OUR COMMUNITY WHO WISH TO ATTEND UFM CLASSES OR EVENTS. ARRANGEMENTS WILL BE MADE TO INCLUDE INDIVIDUALS WHO HAVE VISUAL OR HEARING IMPAIRMENTS, MOTOR DISABILITIES, OR OTHER DISABILITIES. YOU CAN ASSIST BY INDICATING SPECIAL NEEDS ON YOUR REGISTRATION CARD.

Volunteers

Change your lifestyle! Volunteer at University for Men. There are two types of volunteer job options: OPEN ENDED PROJECTS: Dreams of ours (or yours) that have not been pursued, e.g., Special Programs for segments of the population we are not reaching, expanding services, etc. You may be a part of a local UFM newsletter, Intersession UFM classes, improving the UFM House, Graphics and Artwork.

ROUTINE TASKS: Such as brochure distribution, help with registration, answering phones, keeping a public file, maintaining contact with our teachers, preparing reports about what's in other Free University catalogs so that we can keep coming up with new ideas, help with mailings, proofreading brochure copy ...

Dream along with us. Get career experience, meet new people, do something important. VOLUNTEER!!
The Lou Douglas Series

Lou Douglas died last October. His entire life of 72 years had been devoted to service for all people. He was a distinguished professor of Political Science and for over 30 years thousands of students were touched by his wisdom, wit and kindness. His contributions to the political and legislative processes in Kansas are legion, and while much of his work was with the Democratic party, he was unilaterally respected and admired by people of all political persuasions.

University for Man was uniquely privileged to have Lou as an active member of our Board of Directors until his death. He also spent much of his time since retirement working with us — and his advice, counsel and financial support were integral to whatever success we have recently achieved. When

When colleagues gathered to honor him at a retirement banquet, these comments, which capture the essence of Lou Douglas, were shared:

A Focus on the Presidency: 1980

Because of Lou Douglas’ role in bringing issues of the presidency to the forefront in his teaching, the first Lou Douglas series is devoted to an in-depth look at the presidential election of 1980. “A Focus on the Presidency” is geared toward providing the people of the Manhattan area perspectives on various issues which will be especially important in this year’s election. We hope you will join us in this examination and discussion of the role and the responsibilities of the President and Chief Executive.

First Meeting: Sunday, Feb 17 3pm
All other meetings: Thursdays, 7:30pm
Location: Manhattan Public Library

Feb 17 Perspectives on the Presidency in the 80’s: Governor John Carlin will open the Lou Douglas series by presenting his perspectives of the Presidency’s relationship with the government.

Feb 21 The Presidency and National Security: What does “national security” mean and who determines the meaning? This panel discussion will center upon this question and other topics including the “threat of Soviet military power” and the direction of American foreign policy.

Feb 28 Human Rights at Home and Abroad: How do we define “human rights” in our relationships and in our community? How do our convictions to “human rights” translate into the national and international reality? This discussion will examine human rights in several perspectives including the rights of minorities, women and third world nations.

March 6 The Politics of Energy and Economics in the 80’s: A sound and responsible energy policy -- is it only a dream? What type of leadership does America need in a world of decreasing fossil fuel resources?

March 20 Who Really Rules? Politics and the Individual: Does your vote really count in the world of political decisions? Join us for a look at the role of the individual in the hectic process from the local community to the national level.

UPM POTTERY SALE
Our Christmas sale was such a success that we've decided to do it again. The first sale of 1990 will be held on Thursday and Friday, May 1 & 2 at the K-State Union. Any area potters wishing to participate can sign up at registration or call Ine Lay, 539-5119 for more information. Sponsored by the UPM Potters Guild. (No limit.)

QUILLING
Roseann Wilkerson 776-5451
Thursdays, 6:30pm
First Meeting: Feb 28
Limit: 8
Location: Tom's Hobby & Crafts 716 N. Manhattan

Learn basic quilling. Quilling is an old craft that, while time consuming, results in beautiful and inexpensive gifts. Materials can be purchased at the first meeting.

( Roseann has taught UPM classes for several years.)

GLASS Etching
Tom Wilkerson 776-5451
Location: Tom's Hobby & Crafts 716 N. Manhattan

Fee: $7.50, pay at class
This is a beginning class on chemical etching, a process used by professionals for years. The technique can be used on glass, mirrors, hobby, pitchers, vases, windows and patio doors. (Tom is the owner of a local craft shop and enjoys teaching others.)

Kansas Water: Is There Enough?

Tuesday, April 2, 7pm
Manhattan Public Library

Water. The lack of it is reaching a crisis stage in parts of the state. Kansas will be looking at the water resources of the state.

Water. In a large part, it controls our very lives. Water. Some claim it has solutions to the problems. Others throw up their hands in frustration. Water. Where will it all end? The Wichita Eagle Beacon

The quality, quantity and local issues pertaining to Kansas' water future will be debated by a panel of experts from across the state. Kansas residents are not fully informed on this topic.

Gay Gibson - Division of Water Resources
Mertha Mangelsdorf - recent winner of National Press award; Science Division, Kansas Resources Protection Council
Mel Gray - Department of Health and Environment

Details and additional panel members will be sent to all those registering for the evening. Join us in investigating the future of our vital day-to-day resource.

(Tom, Ellen and friends love to swing dance)

INTRODUCTION TO MOVEMENT IMPROVISATION
Susan Kudern 539-7177
Thursdays, 6:30pm
First Meeting: March 20
Length: 10
Location: Dancers Inc., studio 3rd and Humboldt (use back entrance on east side above Office World)
Limit: 12
This course is designed for people who want to develop some self-confidence in movement, moving with others or just by themselves. Although the approach is low-key (no intimidating requests like "get up and be a butterfly for us") and geared towards objective problem-solving exercises, the results are quite subjective: more body awareness and expressiveness, less bodily tension and embarrassment, and greater personal freedom!
(Susan is the director of a local modern dance company and an assistant professor of dance at KSU.)

THE FAMOUS GROUPS OF THE 60's
Debra Hubert 539-3776
Mondays, 7:30-9pm
First Meeting: March 10
Length: Indefinite
Location: UFM Fireplaces Room
This course will be a discussion class about groups such as the Beatles, Monkee's etc. with a special focus on the Monkees. There will be magazines, albums, and talks about the group's TV shows.
(Debra has been interested in the Beatles since they produced Shea 1960. She is a Fan Club member of either Ringo, George, or John of the Beatles, or could it be Davy, Micky or Mike of the Monkees.)

JUGGLING 1
Steve Parrott 776-3100
Mondays, 6:30pm
First Meeting: Feb 18
Length: Indefinite
Location: UFM Banquet Room
Limit: 20
Fee $5.00, pay at registration
Even the so-called "uncordinated" ones are welcome to participate in this lively combat art. Learning to juggle is unhurriedly easy, and its reward-heightened body awareness, improved coordination—are just incidental to the fact that juggling is so much fun. (Steve has been teaching juggling for several years.)

JUGGLING 2 (BEGINNING AND INTERMEDIATE)
Mike Kohn 539-8598
Sign up at registration and you will be contacted.

SILK SCREEN PRINTING
Sidney D. Dwayne 2-5967
Wednesdays, 7pm
First Meeting: Feb 20
Length: 8 times
Fee: $5, pay at registration
This course will not only cover the history of silk screen and types of screens, but participants will make a screen and print their designs. (Sidney has had over 40 years experience.)

BEGINNING GUITAR

(Tim has performed professionally)

FLIGHT HILLS GUITAR PLAYERS
Linda Teener 537-0508
Thursday, 7pm
First Meeting: Feb 21
Length: Indefinite
Location: 1900 Jackson
We are a group of mountain and hammered dulcimer players who enjoy playing together. Come share tunes and techniques you know and learn what others are doing. Anyone interested in dulcimer is welcome. (Linda has been interested in dulcimer for several years and plays both mountain and hammered dulcimer.)

BEGINNING AND INTERMEDIATE BANJO
Tuesday, 7pm
First Meeting: Feb 19
Length: 11 times

Location: Bog Blueprint (Park on 8th)
Limit: 10
If you are peer-counseling in which each participant learns to be both counselor and client. The goal of the counseling is re-emergence from rigid patterns of behavior and thinking which restrict our growth, loving, and zest. We are especially interested in liberating issues, such as racism, sexism, and adulthood-getting free of internalized oppression, and interrupting our own behavior that oppresses others. We counsel each other by creating safety so that clients can discharge painful distress.
(Jonna and Sandy are experienced co-counselors who are authorized to teach by R.C. international headquarters in Seattle.)

(Richard is an electrical engineer.)
UNDERSTANDING YOUR ELECTRICAL RATES
Mary Reed 776-8389
One time, Tuesday, Feb 19, 7:30pm
Location: KU, Union, Rm 225
Do you wonder why your electric bill keeps going up even though you're conserving energy? We will discuss the reasons for increasing electrical rates and alternatives available to a customer. Topics will cover include rate structure, customer demand, fuel prices, and federal regulations. (Mary is the Customer Assistance Advisor for Kansas Power and Light in Manhattan.)

WINDS WORKSHOP
Mike Wilson and Doug Miller 532-5866
Saturday, 9:30am
One Time, March 22
Location: UFM Fireplace Room
Poorly placed, loose fitting or unprotected windows can account for one-third of your home's heating and air conditioning costs. Many companies are starting to market energy saving window devices. We'll discuss how to evaluate these devices, as well as how to make your own window energy savers, including thermal curtains, roller shades, and window box solar collectors. (Mike and Doug are members of UFM's Appropriate Technology staff.)

ETHANOL GRAIN CONVERSION
Dr. Dwight Weibe 532-5735
Thursday, 7:30-9:30pm
One Time, Feb 21
Location: UFM Fireplace Room
Limit: 40
We will discuss the process of converting corn to ethanol. (Ethanol, at 160 proof, can be used in cars and tractors at a cost less than $1 per gallon, and the residues fed to livestock. Information about a prototype solar powered ethanol plant will be available at the meeting.)

STOP WOLF CREEK
Neil Schanker 529-5766
One time, Wednesday, Feb 20, 7:30pm
Location: UFM Conference Room
Past and present efforts to halt construction of our nuclear power plant near Burlington, KS will be discussed. We'll also examine techniques of personal letter-writing to elected officials in disfavor of the plant. A local anti-nuke group is a possibility. (Neil is a part-time anti-nuclear activist.)

RADON MASTES IN THE SUNFLOWER STATE
Neil Schanker 529-5766
One time, Wednesday, Feb 27, 7:30pm
Location: UFM Conference Room
A California corporation secretly applied to store radioactive waste in the Lyons, KS salt mine. Other states have experienced countless leaks, contamination, and transportation accidents from such dumps. Let's stop the first from becoming a radiation source. (Neil is not out to the world.)

NUCLEAR CO-OPS
Bill Dorsett 539-1966, 539-5766
One time, Wednesday, Feb 20, 7:30pm
Location: UFM Conference Room
Kansan Rural Electric Power Co-ops are buying into the Wolf Creek reactor. In a discussion series, we will ask the role Kansas uses its electricity and what other energy choices accomplishing those tasks. If you have been doing research into an unusual technology, bring your materials for one of the classes. (Bill is interested in increasing awareness of energy issues.)

CCD CAMPAIGN
Bill Dorsett 539-1966, 539-5766
Sign up and you will be contacted.
The Kansas Corporation Commission will be holding hearings on cap overruns as well as the coal power plant project. A campaign will be made to keep them from happening. (Bill is interested in a sane energy policy for KS.)

Thursday, 7:30pm
Section I: Feb 21
Section II: April 10
Location: UFM Fireplace Room
Interested in heating your home's water with the sun? Whether you have serious intentions about solar hot water, like to tinker around or are just curious, this presentation will show you some installation, construction, collector under construction, and give you a chance to ask questions you've always wondered about. (Gary is a planner at Sunlight in Manhattan.)

MANHATTAN AREA ENERGY ALLIANCE
John Endell 539-6076
Organizational meetings will be advertised. The Manhattan Area Energy Alliance is a new educational and political organization that will build support for economic and environmentally safe energy alternatives. MEAA now has four active committee members. (See below.) Committee work is just beginning. Sign up for a specific committee.

UTILITY RATES
Richard Raw 537-7968
The Utility Rate Committee is studying proposals for utility rate changes in utility fee practices. Peak load pricing, life rate, and the elimination of declining block rates are under consideration. The committee's conclusions may serve as the basis for MEAA testimony at future Kansas Corporation Commission hearings. You don't have to be an expert. Committee members are amateurs willing to learn.

TRANSPORTATION
Larry Davis 539-8668
This committee is studying the proposed city bus system that would utilize its potential energy savings and would investigate other ways to reduce automobile use.

TUTTLE CREEK HYDROELECTRIC POWER
Tom Mongey 537-0624
Would using Tuttle Creek as generating electricity provide social benefits great enough to justify state or federal support? If so, what effective political actions can be taken to bring it about? The committee hopes to get answers to these questions and recommend action to MEAA.

CONSERVATION
John Endell 539-6076
This committee is investigating the possibility of getting a solar power building code for new construction in Manhattan on the model of Davis, California. It is also looking for ways to get adequate building insulation installed in all existing city structures.
