OR CURRENT RESIDENT
Welcome to UFM...

UFM is an unusual organization, sometimes hard to define, but important to the quality of life at KSU and in Manhattan. For 29 years, UFM has made it possible for diverse people to come together to learn from each other and to organize projects that improve our lives.

This catalog of classes is UFM's best known activity. Enjoy looking at the wide array of classes made possible by the persons who spend their time teaching for us.

A lesser known role has been in initiating community projects. Through the years, UFM has helped launch nineteen different community activities from the nationally award-winning community garden, Women's Resource Center, Fone Crisis Center and Lou Douglas Lecture Series to the Downtown Farmer's Market, People's Grocery Cooperative, Home Owner's Maintenance and Energy Program and others as well.

If you've not experienced UFM first-hand, give it a try. Take a class, teach a class, or stop by and learn about UFM's special campus and community projects.

UFM Staff:

About UFM Classes

UFM adheres to the philosophy that anyone can teach and anyone can learn. We rely on the credentials provided by instructors, class observation and participant feedback as tools for evaluating a class and an instructor’s abilities.

UFM classes are not a forum for selling a product or service from which the instructor might benefit. Materials specifically oriented to an instructor’s financial interests are not to be distributed in class. Participants who wish to pursue a relationship with an instructor outside class time do so on their own responsibility. Please share any concerns you may have about class material or an instructor by calling Charlene at 539-8763.

Private monetary donations help underwrite the costs of maintaining the UFM building, coordinating the catalog of classes and special projects such as scholarships, youth projects, literacy improvement or gardening.

Tax deductible contributions may be sent to UFM at 1221 Thurston, Manhattan, KS 66502.

Inclement Weather Policy

If a class is canceled or rescheduled, a class will be notified, therefore, it is extremely important that we have a daytime and an evening phone number where we may reach you or leave a message. We reserve the right to cancel any class.

Refund Policy

We will give a full refund if a class is canceled by UFM. If a student decides to withdraw before the class begins, and gives 48 hours notice before the starting date, we will refund all but a $3 processing fee. No refund after the class begins.

Pre-Registration is Required

All participants must pay registration fees before attending a UFM class. This allows for adequate handouts and materials. You are not registered until we receive your registration fee. A class may be canceled due to insufficient pre-registration.

Liability Statement

Individual participants should be aware of the risks and hazards involved in recreational sports and fitness activities. They should voluntarily elect to utilize KSU and UFM facilities and participate in programs recognizing present conditions and further agree to voluntarily assume all risks of loss, damage, or injury that they may be sustained while using KSU or UFM facilities.

KSU Continuing Education/UFM assumes no responsibility for costs incurred by individual injury or property loss incurred in connection with the use of University or UFM facilities. Individuals are reminded that they should review their own personal circumstances to determine if they have adequate insurance or protection in case of injury resulting from the use of University facilities or participation in programs. It is recommended that all participants have a complete physical before engaging in any physical recreation program.

Special Policies for Credit Optional Classes

Credit Registration Refunds: After the second credit optional class meeting, but before one-third of the scheduled class sessions have met, fifty percent of the fee may be refunded if requested in writing. No refund is issued if it is requested after one-third of the class meetings have ended.

Credit Enrollment Fees: Courses taken for credit carry additional fees required for University administration of the credit program. A $15.00 late fee will be charged for enrollments taken after the second class meeting. A $25.00 late fee will be charged for enrollments taken after one-third of the class meetings. A nominal student activity and health fees of $16.50 will be assessed for students enrolled in 12 or fewer KSU credit hours.

Withdrawals: A student may withdraw from a credit option class by written request prior to the completion of one-third of the scheduled class meetings without a grade being recorded on the student’s transcript. If a student withdraws after one-third, but before two-thirds of the scheduled class meetings, a grade of W (withdrawn) will be issued. No withdrawals will be accepted after two-thirds of the scheduled classes have been completed.
Learn to Swim Classes

UFM and the Division of Continuing Education are pleased to present the American Red Cross Learn to Swim Program Levels I - VII plus adult swim classes. Small classes allow for carefully guided instruction in stroke technique and water safety. Water Safety is reinforced with tips and practice each day.

The first day of class each student is evaluated to assure they are in the proper class. Students advance through the levels at their own rate and are moved to different class levels as space permits and skill advancement demands.

PARENTS’ DAY is scheduled to allow Parents on deck to observe their child’s progress. Each child will receive a written report at this time as well as at the end of class.

Parents’ Day Dates: Monday, June 2 and 23 & July 7 and 21. Check to see which date applies to your session.

LOCATION: KSU Natatorium - Ahearn Complex

Lockers are available for use during class. Participants must supply towels and swimsuits. Showers are required before entering the water.

Note: Minimum enrollment for all classes is 5. If less than 5 enroll, classes of the same level may be combined or canceled.

Funding Your Programs
Join us for a one day workshop on funding strategies. Gain new skills and look at the possibilities of adding or improving the fundraising efforts of your organization. Topics will include:

Special Event Fundraising:
Learn the secrets to creating successful special events for your organization. Special events attract publicity, gain supporters, educate the public and raise money. They are also a lot of work and can create negative impressions if not successful. Learn how to set a time line, develop action steps, involve others and create publicity for your event.

Direct Mail Fundraising:
Direct mail is a very common way to raise funds for an organization. With the deluge of solicitations received by the public these days, it is important that the mailing your organization sends is noticed, opened and gets a response. We will look at how to organize a direct mail campaign, how to write your appeal letter, how to handle mailing issues and other related topics.

Personal Solicitation:
Requesting funds for your organization in person is a very effective way to elicit support from people outside your organization. It is an effective, simple and economic approach to fundraising. However, a built in reluctance keeps us from being as effective as we could be with this technique. Learn proven techniques to approach individuals for funding requests. Practice the skills to make you successful. Leave this class with more confidence, prepared to tackle this new fundraising challenge.

Presenters: Linda Fener, UFM Executive Director, has been involved in fundraising activities for many years. Shirley Runnell, Executive Director of the Flint Hills Broadcasting, has ten years experience with voluntarism and administration of in-kind, cash and volunteer solicitation.

Date: July 11 (Friday)
Time: 8:00 - 5:00 pm

Welcome Signs
These "Monthly Welcome Signs" will provide years of enjoyment month after month. They are made out of 1/4" X 12" pine wood that is already cut and sanded. We will paint, etch, and decorate each monthly wood sign to fit your decor. Just come, relax, create and enjoy. Class projects will be displayed at "The Farmer's Daughter" at 423 Poyntz Avenue. There is no experience necessary and all supplies and materials are furnished.

Kathy Lyman (539-2002), has been involved in the craft business for over a dozen years. She is an elementary school teacher but has been teaching craft classes full time for the past 6 years. Having recently moved to Manhattan, she owns and operates her own business called "The Farmer's Daughter". She enjoys helping people create their own craft keepsake that they can say "I made it myself!"

Exploring Science and Nature

Exploring Science and Nature is a hands-on class for 5th through 7th graders that will show how simple concepts of science apply to nature. Students will spend time both in and out of doors observing and learning about commonly found animals and their habitats. In class experiments will provide practical applications for the concepts presented. A few simple take home tasks and projects will also be involved. On the last meeting, June 27th, students will meet at the zoo to estimate and use their knowledge as they "go on safari" in small group scavenger hunts. Parents are encouraged to observe at anytime and to help chaperone the zoo affair. Fee includes science kits and trip to the zoo.

Shawna Sogren (395-3878), will be a Senior in Secondary Education at K-State in the fall, with emphasis in social studies. She hopes to one day be certified to teach science as well. She has worked as a volunteer at the zoo for some time during the summer feeding camps since age 15 and looks forward to teaching the UFM classes. She believes enrichment for all ages and learning is contagious and hopes to infect future generations with "the learning bug". Interests include Science, History, Science, critters, strange facts, and similar.

Perseid Meteor Shower

EN-04

August is the time for the Perseid Meteor Shower. Join us for a stargazing trip to see for meteors. We'll point out summer constellations, talk about what meteors are and why they sometimes rain "in showers". Hopefully we'll catch a few bright ones while we are out. Meet at UFM parking lot. We'll then caravan to a good dark site. Bring a jacket, binoculars, lawn chairs or a blanket. We'll stay out as long as people are interested. If clouded out, we'll meet Tuesday, August 12, same time and place.

Dean Snowell (539-3931), teaches Earth Science classes at Manhattan HS. He has been sharing his knowledge of the sky for years, and loves to meet people who share his interest in the night sky.

Date: August 11 (Monday)
Time: 7:30 pm
Fee: $8 individual/$12 family

Making Compost

EN-01

Yes, you can compost! Composting can be as simple as letting a pile of yard waste sit, or burying your table scraps in a shallow hole in your top soil. The system you choose will depend on your lifestyle. Let's talk about the different methods available. Then put on your work gloves. We'll be making a basic "I X 3" pile to demonstrate the basic concepts of compost. Please bring a garden fork, shovel and gloves if you have them.

Madonna Stullmann (539-4965), has an extensive background in horticulture with emphasis on sustainable approaches to food production and backyard gardening. She loves to share what she has learned.

HEALTH, HEALING AND HARMONY SERIES

Introduction to Aromatherapy
Aromatherapy is the art of using essential oils for healing. The olfactory membrane is the only place in the human body where the central nervous system is directly exposed to the environment. Through the sense of smell, we tap into the limbic portion of the brain where emotions, imagination, memory, and our sexual drive are evoked. Essential oils can stimulate, calm, energize or stimulate the body, mind and spirit. Known for their pleasing aromas, they also have antiseptic, antibacterial, and antifungal properties.

Kris Barnard has been a Licensed Practical Nurse for 20 years. She has practiced and used Meditation and Therapeutic Touch for many years. She owns her own business, Health and Harmony Pathways.

Date: June 26 (Thursday)

Unlearning Depression

Although we naturally try to eliminate depression from our lives, it often finds ways to return, resurface, and remain. Thus, useful goals are learning to recognize and manage depression, establish equilibriums, and promote constructive directions. Rather than making depression a feared enemy, we can accept it. By accepting it, we can learn how to move through and beyond it. We will address a range of factors that maintain depression, ways to work with them, and ways to "unlearn" the beliefs that support them. We will use expressive, interpersonal, and biophysical approaches. In the process of this work, we have learned to respect the unique developmental paths of individuals as well as the universality that connects individuals. He believes that workshops can be places where individuals can take in new information, give and take feedback with others, and support each other's growth in an atmosphere of acceptance.

Anxiety and Choice

Anxiety is a state that everyone has experienced, although in differing degrees. This state has survival value and is contrasted with psychological growth. Anxiety is likely to be experienced along with change, and may be present with positive changes as well as negative. Excessive anxiety is known to interfere with task performance, equilibriums in relationships, and psychological well-being. Thus, anxiety has the potential to interfere with work life, academic achievement, self-confidence, and worthwhile relationships, In this single session seminar, we will learn how to differentiate positive and negative aspects of anxiety. Exercise will be offered that will help participants learn how to recognize and accept anxiety, as well as to regulate and constructively direct the state of consciousness. The link between creativity, choice and anxiety will be explored with a focus on the role of our awareness of future possibilities.

Creative Movement for Children

Through Creative Movement children can let their imagination be broadened and expressed. We will help your child nurture personality and ideas to greater growth by using various creative movement experiences. Activities include using music and the beat of music, dancing and shapes to develop movement.

Dena Fox (565-0645), is a junior at KSU, majoring in Dance Therapy with a secondary in Gerontology. She has been a member of the KSU Classy Cats Dance Team for 3 years and has been active in and taught dance at both Paula's School of Dance in Holton, KS for the past 15 years and Guild Ballroom School of Dance for 2 years. Kacy Sawyer is currently attending KSU as a junior majoring in Philosophy Pre-Law and minor in Dance. SASSY/Safety Awareness and Street Smart Youth

This program teaches children personal safety in an increasingly dangerous society. The program helps build self confidence, increases awareness and teaches effective defense techniques as well as teaching safety precautions taught at home and school. This is a fun, safe program for children that teaches very important skills. This class will help young people and their parents feel safer by discussing and practicing topics such as staying home alone, stranger danger, using 911, how to escape from an abductor, how to get help in an emergency. Parents are encouraged to sign up with their child and learn how children can stay safe. Boys and girls ages 5-9.

Diana Tarver teaches the SASSY self defense classes for UFM.

Date: June 28 (Saturday)
Time: 9 - 11 am
Fee: $12 children/$17 parent and child
Location: First Lutheran Church 905 Perry Avenue

Community Garden for All Ages

A walk through the Community Garden in July is a delight to the senses. Flowers, common vegetables and many exotic varieties speak of the interest and diversity of those who garden there. This year, 78 families have signed up to garden 168 plots. This long standing UFM program provides garden space, water, tools and community involvement while supplementing food budgets and growing friendships.

A special section of the garden is set aside as a Children's Garden. Children work in individual or group plots. Join the free fun on Saturday mornings 10:00 at the Manhattan Children's Garden, 8th and Riley Lane. No registration needed.

UFM News in Brief
Summer 1997

30 Years

UFM's 30th Anniversary is Coming

1998 will be UFM's 30th anniversary. We are looking for stories about UFM and celebration ideas. Call or write us with your thoughts and stories. Call at (913) 539-8763, send letters to 1221 Thurston, Manhattan, KS 66502, or E-mail us at ufm@ksu.edu.

Professional Workshops

UFM will be offering several professional development workshops in the coming months geared, especially for not-for-profit organizations. This summer we are offering Funding Your Organization, a fundraising how-to workshop and Planning and Conducting Successful Conferences. Watch for future offerings on grant writing, office skills and other timely topics.

How is UFM Funded?

UFM is a self-supporting community education and resource program. Primary funding for UFM comes through class fees and private donations. Special grants and facility use fees also provide some income. Without the generous support of the community, however, UFM would be unable to continue to provide the number and variety of classes and programs currently offered to the community. UFM uses local donations to help underwrite class expenses and scholarships that cannot be funded in other ways. Donations are matched with grants and fee income to keep UFM programs as accessible as possible for the entire community. If you would like to become a UFM supporter, please complete the form below. All contributions to UFM are fully tax deductible.

Volunteers are the Heart of UFM

Volunteers are the heart of UFM programs. Without the interest and dedication of our volunteers, most of the classes offered in our catalog could not happen. For 29 years, UFM has maintained the philosophy that anyone can teach and anyone can learn. Through the years, well over 5,000 individuals have given their time to teach others about a skill or interest they enjoy. Our youngest instructor to date was 11 and the oldest 94. Countless other volunteers assist UFM through internships, serving on boards, helping with special projects, yard work, facility maintenance and many other ways. Without this help, UFM could not exist. Thanks you to all who help make it happen!

How UFM Classes Get Organized

Class ideas come to UFM from many sources. Sometimes classes are convened to pass on specific knowledge or skills and at other times to share ideas and interest among participants. Classes may originate from the interest of the instructors, at the request of current students or from others in the community who call with an idea. UFM provides the vehicle to bring teachers and learners together. The power of UFM’s mission is seen when past students become motivated to become instructors themselves.

UFM staff works with a prospective instructor to assist with meeting place, class structure, handouts, and other logistics of making a class work. New instructors are asked to provide some demonstration that they are able to convene and facilitate the learning process. UFM tries, within the volunteer framework and philosophy, to provide a catalog of quality classes and instruction each semester.
